

ACHYUTANANDA

Achyutananda came about 500 years ago, along with Lord Chaitanya. It is said that Chaitanya was Krishna Potency.

Achyutananda wrote more than 1,00,000 porthis on Palm leaves in Oriya, some of which I had seen in August'06 at Cuttack & later in April 2008 too.

Achyutananda used to go into Nirvikalpa Samadhi and then recite his thoughts in poetic language, and his disciple Ramdas used to write them down

On 02.04.07 around 330 PM, I, along with Tripathi, his son Vicky and a local disciple, was sitting outside the room of Mahant at Nemalo, the Samadhi mandir of Achyutananda, as I wanted to know more about Achyutananda.

All of a sudden this person sitting behind a cycle (Ramdas?) came near us and chatted with us for 4-5 min only before suddenly running away, as if in a great hurry, sitting behind a cycle. HE had an unearthly sparkle in his eyes, call it shine, glow or attraction.

I told him we are waiting here as I wanted to know about Achyutananda

He started with explaining the significance of FIVE ;

- 1) There are Five Gods : Ganesha, Surya, Vishnu, Shiv & Parvati
- 2) Five Mahabhoot
- 3) Five panchbhoot
- 4) Five pandavas
- 5) Five Sakha's (Achyutananda, Anant Das, Balaram Das, Yashwant Das, Jagan Nath Das)
 - ::: Here he remarked just like you are four & I am the fifth Sakha
- 6) All outside five (MACROCOSM) are there in US (MICROCOSM) (Pointing to himself)
- 7) Five YUGA's :: Satya, Treta, Dwapar, Kali & MADHYAM :::
- 8) This current one being the Madhyam Yuga (end of Kali & start of Satya)

Here he also said that there are no (Manushya) HUMANS, only Humans will remain in satya yuga. Probably he was trying to say something more about this Madhyam Yuga (This is the first time I heard anything apart from 4 Yugas.)

Here I interrupted his thought flow (he did change track but remarked that I may have missed something) probably one should not interrupt anyone's thought flow) by asking about the Madhyam Yuga & Achyutananda.

This is where he came up with the matrix of 3, which he drew with his finger on the ground (3 3 3) type & adding them to make 9 on all sides as under

1	9	9	9	1
9	3	3	3	9
9	3	3	3	9
9	3	3	3	9
1	9	9	9	1

& said that

- 1) Madhyam Yuga started in 1999, when winds of more than 333 KMPH speed blew. First cyclone of such intensity hit Orissa in 1999 (and since then all over the world, we had winds of such great speed resulting in cyclones like Rita, Katrina etc.?)
- 2) Here he gleefully remarked (Just like a child enjoying his sport) about the 12 matrix & saying that now 1200 KMPH speed winds will blow (is that even possible?)

HE wanted to leave but I stopped him for clicking the photo as shown above, while I was taking the snap he remarked to Tripathi again about the Panch Sakha. By now one more fellow had joined us. Now we were five so he said, you all are now panch sakha (by name) and referred to himself, the sixth, as RAMDAS and asked Tripathi "KUCH DO NA". Here Tripathi gave him Rs. 10. I was over with the photo (I had listened to part of the talk & had missed his saying of KUCH DO NA which later on Tripathi told me) I only saw him giving Rs 10 & then he sat behind the waiting cycle & left.
